

Thesis Topics (Nov 2017)

I supervise Bachelor theses and offer topics for seminar papers in the IS project seminar in the following areas:

- **Software quality** (e.g., code & design smells, design patterns, software testing)
- **Blockchain technology** (e.g., application fields such as cryptocurrencies)
- **Agile methodologies** (e.g., BDD/TDD)
- **Teaching software development** (e.g., tutoring systems, learning processes)

Theses can be written in German or English. For further details or for discussing your ideas, contact me at thorsten.haendler@wu.ac.at.
